A document worth following

The links below are actual PDF annotations.

Read the details on page 2

Open the OpenCorvus project

This paragraph remains selectable as ordinary document text.
Navigation should keep the document open and retain its zoom.
The next page has a return link and a section destination.

Details and references

Internal navigation resolves the original document destination.

Destination section

This heading is the named target on the first page.

The PDF stores a page reference and an XYZ position.

The linked text, canvas, and selection layer share one scale.
